Subject Baca EA

Confirming my voicemail to Bill a few minutes ago. Please strike the sentence beginning with "Separators and compressors" from the text I sent earlier. The Lexam technical folks think this is premature without knowing more about the characteristics of the natural gas. Thanks.

All - Chantal is shooting to have a revised document out by Thursday or so of next week. We would like to have a conference call late on January 2nd to make sure that all of the FWS folks are completely comfortable with the document. I do not anticipate that there will be any Lexam comments to the version of the document to be sent out next week. Lexam appreciates the prior opportunities to provide background and other information, but we think it is important that the final phase of the EA be exclusively in the hands of the FWS and ENSR.

Chantal - I will be in Monday morning, but thereafter out until January 2nd. I will be email and voicemail connected, however, and my cell phone is 303-898-6531 if anything comes up. Don't hesitate to call.

Thanks everyone for all your help. Have a very Happy Holidays.

Dave

Subject Lexam EA

Mike and Ron

We are finished making changes to the Baca Gas Exploration EA and are sending it to you for USFWS blessing. The text isn't too large and is attached but the figures are big files. We can set them up on our FTP (Leapfile) site for you to download if that is easiest or can fed-ex a CD with the figures. Just let me know your preference. Naturally we hope you can take a quick look at the document and get back to us fairly soon with any edits. Once we have your ok we can produce the public draft and will need to know the number of hard copies and CDs you will want.

Thank you

Subject: Re: BACA EA copies

Hi Chantal,

I just got off the phone with our planning office in Denver. Knowing what they do about this EA they recommended 200 hard copies, a few go to some individuals that have already requested, a couple to public libraries, a few to our regional office and the rest we can keep here or with you to distribute to the public upon request.

I have some addresses can I forward them to you?

I forgot to ask about CD's. Do you have advice on how many? How does 25 sound?

We decided on a 45 day review.

The public meeting will be either the 22nd or 29th of January. I believe Ron has set that up but I need to verify with him on Monday.

Thanks!

Mike

BACA EA copies

Ron and Mike

I need to know ASAP the number of hard copies and CDs you require for the Baca EA. We should also get the newspaper ad back in the papers (although it won't be in the Eagle until Feb). Are we doing a 30 or 45-day review? Do you have a date for a public meeting?

Thanks!

Chantal

Subject Re: changing dates at the POA

Mike,

I have re-booked the Baca POA Hall for 4:00pm until 10:00pm on Tuesday February 12. I'm assuming we'd schedule the public meeting from 6:00 pm to 8:00 or 9:00pm on that date.

Let me know if this will be okay?

P.S. Do you know the status of the EA release?

Thanks,

Subject changing dates at the POA

Ron,

I mostly sending this e-mail so we don't forget to take care of this on Monday.

I have been trying this afternoon (Friday) to reach someone at the POA to change our reservation of the POA hall from January 29 to February 12. No one answers and everyone's voice mail box is full, at least that I've tried to reach so far. So, I'll keep at it a while longer today but we may need to take it up again on Monday. Who did you set up the original date with?

Mike
